EDUCATION

Vellore Institute of Technology   Chennai
Bachelor of Technology in Computer Science   *July. 2019 – June 2023*

Atomic Energy Central School   Maharashtra
Class XII   *April 2018 – May 2019*

PROJECTS

Estates Avenue | *Java Springboot, SQL, Angular*   Aug 2024 – Oct 2024

- Developed a Real Estate Management System using java springboot for backend and Angular for frontend.

- Implemented Microservices Architecture: Customer, Property, Manager services with REST APIs.
- Database Integration: Utilized both SQL and MongoDB databases to manage diverse data types.
- Security Features: Implemented JWT-based authentication for secure access to microservices.
    Source Code

polyEms - AI Chatbot | *React, NodeJs CSS*   Dec 2024 – Jan 2025

- A lightning-fast chatbot powered by Groq, Google GenAI, and the latest cutting-edge models from GitHub Models and Hugging Face.)
- Implemented support for multiple AI models, allowing the chatbot to dynamically select the best model for specific tasks based on user input.
- Designed for performance and efficiency, Groqify delivers a seamless conversational experience. Try It
    Source Code

Tech Emporium | *React, Node.js, Express, MongoDB*   Dec 2023 – Jan 2024

- Built a full stack e Commerce platform for Electronics with React, Redux, Node, Express and MongoDB
- Optimized seamless user experience with intuitive product browsing, and functional shopping cart powered by react-redux.
- Introduced features like user feedback, rating and 100% secure payment processing.
- Built a scalable and robust backend API using Node.js and Express.js to handle product management, user authentication, order processing, and payment integration. Try It   Source Code

TECHNICAL SKILLS

Languages: C++, Java Springboot, JavaScript/Typescript,
Frameworks: React, Redux, NodeJs, Angular, DotNet, Next.js, Express, TailWind, Shadcn
Developer Tools: Git, Replit, VS Code, Docker, Postman
Databases: MySQL/MSSQL, MongoDB
Technical Skills: Object-Oriented Programming (OOPs), Data Structures and Algorithms,

CERTIFICATIONS

- Wipro NGA Pre-skilling program: Achieved proficiency in .NET and Angular through Wipro's Project Readiness Program

- 100xDevs Cohort 3.0: Web development + Devops Cohort
